

A whiteboard with a metal clip at the bottom, displaying five mathematical equations. The equations are written in black marker and show powers of 2 minus 1, with the last one being a composite number.
$$2^2 - 1 = 3 \text{ prim}$$

$$2^3 - 1 = 7 \text{ prim}$$

$$2^5 - 1 = 31 \text{ prim}$$

$$2^7 - 1 = 127 \text{ prim}$$

$$2^{11} - 1 = 2047 = 23 \cdot 89$$

# Das CrypTool-Buch: Kryptographie lernen und anwenden mit CrypTool und SageMath

Prof. Bernhard Esslinger
